## Recall Notice

### **Date**

May 9, 2011

Model No. 220

### **Product Name**

Finger Ease String Lubricant

### **Full Product Description**

Finger Ease, guitar string lubricant for a fraction of the friction. Eliminates string corrosion providing smoother, longer lasting strings. Excellent for bowed strings. Finger Ease makes faster fingering possible thus improving a player's proficiency and enjoyment. Finger Ease is now available in a new improved formula that is ozone friendly and has a pleasant, short-lived lemony fragrance.

UPC 786141220223

### **Hazard Identified**

The Guitar String Lubricant described above must be removed from sale. The above lubricants are regulated under the *Consumer Chemicals and Containers Regulations, 2001*. The products do not bear the required Hazard Symbols, Signal Words and Warnings as prescribed for chemical products packaged in pressurized containers. Chemical products in pressurized containers not bearing compliant label cannot be sold or distributed in Canada following the *Hazardous Product Act*. Consequently, distribution or sale of these non-compliant products is prohibited.

**This recall will be monitored for compliance by Health Canada.**

**Please contact our Customer Service desk on toll free 1-800-363-8460 (Isabelle Cyr) where an RMA will be issued for return of product or contact us at [info@coastmusic.com](mailto:info@coastmusic.com)**

Coast Music, A division of JAM industries has now discontinued this product. This will be reactivated only if the Manufacturer Chem-Pak is in compliance with Health Canada Requirements.
